

# It's your choice

## Statements:

no greenhouse gases produced	does not produce acid rain	you do not need to buy fuel to keep it going
not many of these installations are needed to produce lots of energy	does not spoil the local environment	wildlife is not harmed or disrupted
low running costs	building costs are low	energy provided 365 days a year, 24 hours a day, 7 days a week
produces greenhouse gases	acid rain produced	fuel needed to be bought to keep installation running

# It's your choice

## Statements:

huge numbers of installations  
needed to produce lots of  
energy

spoils the local environment

harms and disturbs wildlife

running costs are high

building the installation is  
expensive

# It's your choice

## Types of installation:

nuclear power station

wind turbines

coal fired power station

oil fired power station

gas fired power station

fossil fuel power station

wave power

biomass

geothermal

hydroelectric power station

solar panels

tidal power station
