

Can we use sustainable materials in everyday life?

SARAH

It would cost more to make things, as you'd have to pay for new trees to be grown, for example.

BETHAN

You can't source sustainable materials locally.

ALUN

If we all use them the cost will reduce.

GETHIN

New houses can't be built from recycled or natural materials like this.

JENNY

We'd never run out of building materials, for example, if we did use them.

I think...
